Dear Customer

Fuel Surcharge on All Deliveries

You will almost certainly be aware of the unprecedented increases in fuel prices we are all experiencing at the moment; this of course has a big effect on our transport costs.

With this in mind unfortunately we have no alternative but to apply a £10 + VAT surcharge on all deliveries and this is effective immediately.

This surcharge will be reviewed on a regular basis and further changes made as necessary. As soon as we can remove the surcharge we will, of course, do so.

Paul Mallett
General Manager
